FDA CERTIFIABLE PRODUCTS

Bakeries, Food Preparation Facilities, Fruit and Vegetable Canneries, Dairies, Breweries, and Wineries are a few of the facilities that may require products to meet certain Food and Drug Administration (FDA) Guidelines for application to direct food contact surfaces. Dunn-Edwards currently manufactures and sells a complete line of products that meet these guidelines. Refer to the product information sheet for complete information on each product.

Dunn-Edwards Corporation hereby certifies that the products listed below meet FDA guidelines for resinous and polymeric coatings to be used on food contact surfaces (21 CFR 175.300).
